

haven't you over paid government people anything better to do with my hard earned tax money? why don't you leave xm radio alone ? i enjoy it just the way it is. i don't think the people at xm need your help to format their programing. so since nobody wants your interfearance why don't you go back to hasseling howard stern. you keep screwing with the little voices and SOON we will band together and become one big voice, we will be heard. leave things alone that don't harm anyone but the fat asses that want to get fatter, let them compete fairly, without your help!!
